DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-21 are rejected under 35 U.S.C. 102(e) as being anticipated by Lahtinen 2003/0059463. Lahtinen discloses the invention as claimed comprising a composite vascular construct with a first blood contacting (it is inherent that this is the inner surface of a graft as mentioned in section [0134]) component and a second tissue-contacting component (inherent that this is the outer surface of the stent or graft) comprising a load bearing textile construct ([0134 discusses textiles) having an activated, blood compatible surface, the second component comprising an absorbable construct for tissue in-growth, wherein at least one of the first and second components has at least transient occlusive properties [0031; 0054]; wherein the second component comprises a polypropylene fabric having a biomolecule immobilized on the blood contacting surface [0067]; wherein the second component can be an absorbable film

Art Unit: 3738

(the coatings are equated to films) see [0112] including the biomolecules of polylysine, albumin and fibrinogen.

Conclusion

- 3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Suzette J. Jackson whose work schedule is Monday-Friday 9-6:30 off every other Friday and whose telephone number is 571-272-4751.
- The fax phone numbers for the organization where this application or proceeding 4. is assigned are 703-872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-

0858.

Suzette J-J Gherbi
